(1) According to the term:

- Treasury certificates without interest issued for participations in Institutions (EBRD,...) are considered as debt "exceeding 1 year". - Capital Market: long and medium term debt maturing within 12 months.

(2) According to the rate:

- Fixed = long and medium term debt with a fixed rate + Treasury certificates without interest. - Floating = long and medium term debt with a floating rate + short term debt with interest (inc l. postal giro account).

(3) Per instrument:

- Traditional loans = "Philippe" bonds + other public bonds.

(1) According to the term:

- Treasury certificates without interest issued for participations in Institutions (EBRD,...) are considered as debt "exceeding 1 year". - Capital Market: long and medium term debt maturing within 12 months.

(2) According to the rate:

- Fixed = long and medium term debt with a fixed rate + Treasury certificates without interest. - Floating = long and medium term debt with a floating rate + short term debt with interest (inc l. postal giro account).

(3) Per instrument:

- Traditional loans = "Philippe" bonds + other public bonds.
